

New home for clamping, fastening solutions provider

In celebration of its relocation to larger and improved premises, Banding & Identification (ID) Solutions Africa hosted an open day on 27 November 2015, where clients and media were given a tour of the new facilities, and interactive demonstrations on a wide range of Band-It fastening, clamping and buckling products. Banding & ID Solutions Africa distributes and manufactures Band-It stainless steel strapping and buckles under license from USA-based Band-It-Idex, known for its quality engineered band clamping and fastening solutions.
