

Band it

REF: MMPR 493

Benefits to the industry: Band-It's heat and corrosion-resistant, non-magnetic stainless steel bands and buckles are ideal for packaging, securing and transporting the cables, which are protected from

heat stress and water damage. Banding & ID Solutions Africa distributes and manufactures Band-It stainless steel strapping and buckles under licence from US-based Band-It-Idex, a leader in quality engineered band clamping

and fastening solutions. The stainless steel clamping system is easy to install and remove, and creates a close-knit and tidy packaging. It is available in various sizes, making it suitable for cables of all diameters. [mmp](#)
